

Providing Exceptional Filter Solutions with a Commitment to Customer Service

Volume 1, Issue 1

November 2008

Welcome to our first newsletter!

Our entire organization joins in sending  
Holiday Greetings with every good wish  
for the New Year! *The Filter Shop*

We had a nice honor this past August. The Filter Shop was featured in an article by The Midlands Business Journal. We are on page 6 of the August 8, 2008 issue. What a great compliment to our company to be written about by a local paper. We would like to thank all of you for the opportunity to serve you.

#### Standard pleats now MERV 8

We are excited to announce that our standard pleats *JUST GOT BETTER*. The new standard pleats will soon all be a mechanical MERV 8\* pleat with a lower initial resistance.

In our continued commitment to filtration and our customers, we are now offering our standard pleats at MERV 8 at **no extra cost**.

While we are providing a better filter you will notice a few changes to the appearance of the new filter. These changes will include a new white media being used as well as an even stronger reinforced beverage board. The MERV 7 pleated filters will be phased out over a short period of time.

\*MERV=(Minimum Efficiency Reporting Value)

## Meet our Staff:

Elissa Phillips-Office Manager

Elissa graduated from the University of Nebraska at Omaha with a double major in Human Resource Management and Business Management. She has been with The Filter Shop for 2 years and has been instrumental in growing the company. Elissa handles all front office responsibilities and is usually your first point of contact .

If you would like to place an order or have a question about your account she would be more than happy to help you out.

## Our New 2" MERV 13

- Maintains MERV 13 rating in a full ASHRAE 52.2 independent test as required by LEED.
- Meets LEED Green Building criteria for minimum efficiency.
- Provides points toward LEED certification.
- Achieves efficiency standards outlined in the LEED programs for Existing Buildings in New Construction.

## We have Belts in Stock

The Filter Shop now carries a variety of V-Belts and Power Transmission products.

- Classical V- Belts
- Heavy Duty/ Light Duty Dual Branded
- FHP (Fractional Horsepower) 3L, 4L, 5L
- Cogged, Raw Edge Belts. AX, BX, 3VX, 5VX

## Did you know? ....

We now carry a full line of Negative Air Machines / Air Scrubbers for sale or rent. Parts and accessories are also available.
